

CellTrak is the number one Field Force automation solution for homecare and hospice

About CellTrak Technologies, Inc:

CellTrak Technologies, Inc. is leading provider of integrated mobile solutions for the homecare, hospice and private duty markets. Our patent pending software-as-a-service solutions run on GPS enabled mobile application devices via a homecare technology platform which automates workflow. Data is transmitted wirelessly to an internet site making the data available real time via the Visit Manager dashboard. Secure instantaneous integration is provided to the back-end clinical systems and the payer networks.

Why CellTrak?

- **Improve Compliance**
 - Accurate visit times and mileage, field staff proof of visits, visit records always match care plans and ability to enforce policies for your agency
- **Increase Productivity**
 - Real time information at the point-of-care and office, paperless schedules, time sheets and visit records, accurate data in your office at the conclusion of each visit and proactive business management
- **Increase Income and Reduce Expenses (ROI)**
 - Reduce mileage reimbursement, reduce travel time reimbursement, reduce missed visits, and reduce payroll processing time

Our Technology:

- Industry leading mobile healthcare solution, homecare technology platform and data management solution
- Industry standard interfaces to clinical, billing and payroll systems from all leading healthcare solution providers
- Configurable Software-as-a-Service (SaaS) solution (infrastructure not required)
- HIPAA compliant, HL7, XML flat file and direct connect interfaces
